To God be the Glory!!

NPWM Manager

Senior Pastor Doo-Hwan Kim

Joy of Salvation Church

Dear Man of God,

I want to extend my deepest gratitude for your continued and faithful financial support for our ministry. Because of your commitment, we are able to share hope, touch lives, and walk out our mission with confidence. I am deeply thankful to have you as a partner in this ministry.

As I look back on this season, my heart is overflowing with gratitude to God for His faithfulness, and I wanted to share a wonderful milestone with you. This past June, by God's grace, I officially graduated with my Master of Theology (MTh) from the Asia Graduate School of Theology Nepal (AGSTNP) in Kathmandu. Thank you for walking alongside me as a prayer partner in the Gospel, and I pray that God abundantly blesses you for your vital role in this victory!

This attached picture is of the wonderful individuals who are church workers/church trainees. They are the emerging leaders whom I have the privilege of mentoring, nurturing, and equipping for the future of God's kingdom. Investing time into teaching, shaping, and equipping this group is a central part of our ministry's now.

This is now another beautiful update of how God is moving in our ministry. Praise God, this past month we held a deeply impactful, combined women's fellowship bringing together the women from our two churches. It was a powerful time of unity, sisterhood, and spiritual renewal. We were privileged to invite a guest speaker from outside, who brought a timely message. During our time together, the women were deeply enriched as we focused on: Spiritual Growth and Deeper Faith, Leadership and Service, and Family and Community.

This is the picture of a young lady with her baby alongside my mother. My mother and I have been actively reaching out to her, sharing the love of the Gospel, and consistently following up to walk alongside her in this season. We are praying deeply that the seeds of faith being planted will take root and that she will soon make the decision to come to Christ.

Prayer Points:

- My son has just finished his first term exams. Please pray that his hard work will be rewarded, and that God will continue to focus as he grows academically and spiritually.
- This month, my wife is undergoing medical checkup. She has had high blood pressure for over a decade now. Also please pray that she has been suffering from an extreme cough lately that has been very draining for her.
- We are currently facing a significant challenge in one of our daughter churches. The monthly rent for land lease is already incredibly expensive, putting a heavy strain on our resources. To add to the urgency, the landlords will be informing us after ten days whether they intend to increase the rent even further or allow us to renew under the current terms.
- Please pray for the spiritual growth of every single believer in our churches. Also, please pray for the new believers who are just starting to come to our church.
- I still have the persistent pain and limited movement (tennis elbow) makes it quite difficult to manage my daily responsibilities. Please pray for supernatural healing, relief from the constant discomfort, and for my arm to fully recover its strength so that I can continue serving our family and ministry without hindrance.

Once again thank you!
In His Service,
Pastor Saul Shrestha
