Mission Report for April 2025

Dear Pastor Nam Sewoung and Pastor Young Hwa,

Greetings in the love of our Lord Jesus Christ.

My family, together with the church here, would like to send our warmest greetings and heartfelt thoughts from afar to you, your family, and your church. We pray that God will grant you peace, good health, renewed strength, and overflowing joy as you continue serving Him faithfully.

We are deeply thankful for your love, prayers, and continual support. Your help and encouragement have strengthened both our family's livelihood and the ministry work here. We believe that your kindness is evidence of God's grace and faithfulness. We also continue to pray that the Lord will bless you with wisdom, protection, and guidance in every area of your life.

At present, we are actively involved in many ministries within the church. These ministries include teaching God's Word to youth every Friday, open English and computer classes, teaching guitar, and teaching children in Sunday School through the CBN program. We also reach out to young people through the Alongside Ministry, which includes an annual youth camp. Through these ministries, many people in the surrounding community have the opportunity to hear the Good News of our Lord.

Thank you once again for your prayers and support. May the Lord richly bless you and your church always. Amen.

With love and gratitude,
Oem Lun

Prayer Request:

- Please pray for good health for me, my wife, and all our church members.
- Please pray that our church members will remain strong in their faith.

- Please pray that the economic situation of our church members and the villagers will improve despite the effects of the global conflicts and economic difficulties.
- Please pray for peace and safety regarding the Thailand–Cambodia conflict.

<u>Attach are some photos from our recent church activities</u>

1. Practice and prepare for Sunday service

2. Sunday Service

3. Sunday School

4. Surrender to God

5. Bible Study for Youths and Teenagers

6. Church Youth Camp

7. Teaching Computer
