- We recently conducted a free medical camp for all our church members and nearby people to our church. This free medical camp includes blood test for diabetes, blood pressure test, screening for other health issues. Lot of people benefited because our free health camp. We praise God for that.
- We also celebrated our 14th anniversary of our church. We had special service September 06, 2026. We invited new people to join us and prayed for them for all their problems in life.
